Alternative Construction Lighting

The Alternative Construction Lighting (ACL) 1260 models provide a durable, reliable, portable and power source suitable for any situation or environment. The towers are outfitted with a photo sensor that controls light on/off times thus eliminating any operator interaction. Heavy duty construction allows use of this tower in virtually any environment where portable lighting is required.

COST EFFECTIVE

Solar charging capacity uses the sun's energy to charge batteries. Photo sensor functions allow use with NO daily operator interaction. No fuel required. AGM Gel batteries require NO maintenance.

Diesel Light Towers vs. ACL Solar Light Towers

DIESEL COSTS

Fuel Costs = \$4.00/Gallon

Peak Fuel Usage at Night = 10 Gallons

Annual Fuel Usage = 3650 Gallons

Annual Fuel Costs = \$14,600.00

Service Every 500 Hours of Run Time

9 Services Per Year = \$220.00

Labor to Fuel Everyday = \$50/Hour

Annual Labor Cost to Operate = \$18,250.00

TOTAL ANNUAL COST - \$34,830.00

* (Based on 1 Gallon/Hour - 10 Hours/ Day - 365 Days/Year)

SOLAR COSTS

Fuel Costs = \$0.00 - **FREE FROM THE SUN**

Clean Solar Modules Every 2 Weeks

Labor Costs = \$15.00/Hour

Annual Costs = \$390.00

Service Every 3 Months = \$150.00/Service

Annual Costs = \$600.00

Labor Costs = \$0.00

Annual Labor Cost to Operate = \$0.00

TOTAL ANNUAL COST - \$990.00

TOTAL ANNUAL SAVINGS: \$33,840.00!

Solar Investment Tax Credit

The Solar Investment Tax Credit (ITC) is one of the most important federal policy mechanisms to support the deployment of solar energy in the United States. The existence of the ITC through 2016 provides market certainty for companies to develop long-term investments. In the U.S. tax code, the ITC is a 30 percent tax credit for solar systems commercial properties. (Under Section 48)

ACL1260 Solar Light Tower

Solar Modules	4 315 Watt +
AGM Batteries	6 260 A/Hr
LED Lights	1 100 Watt Tunnel & 2 200 Watt Tunnel
Inverter/Charger	1 60 AMP AC Charger
Inverter	1 Pure Sine 2000 Watt
Charge Controller	2 60 AMP Charge Controllers
Light Stand	22' Fixed Mast
Trailer	3500 lb Axle, 4" Channel 2" Ball Hitch, 2640 Total Weight

*All Electrical components are UL Listed

KEY PERFORMANCE FEATURES

- Rapid setup time
- 20-25 hour continuous-run battery capacity with no charging
- 2000w - 120 volt auxiliary power receptacle
- 4 point retractable stabilizer/out-riggers
- NO sound or emissions
- Unit can be charged from 120 volt receptacle
- MPPT charge controllers to maximize solar power gained and to prevent overcharging or over-discharging batteries
- Charge controllers that store 50 day downloadable history of performance data
- 3 adjustable 3-way LED Flood Lights (200 watt flood lamp- 100 watt tunnel lamp- 200 watt flood lamp, which will produce approximately 61,500 total LED Lumens). Lights have an estimated life of 50,000+ hours.
- Temperature controlled cooling fans to maintain optimal component operating conditions

WARRANTY INFORMATION

- 2 Year ACL Trailers Workmanship Warranty
- 25 Year Solar Module Performance Warranty
- 5 Year Charge Controller Warranty
- 5 Year Battery Warranty
- 3 Year LED Light Warranty
- 2 Year Battery Charger Warranty
- 2 Year Inverter Warranty

*2 Year Workmanship Warranty- Manufacturer's warranty is limited to defective workmanship and failure due to routine use according to manufacturer's operating guidelines. Warranty does not cover failure as a result of abuse, neglect or misuse of this product

THE **BLACK** LINE

BLK-CPB700R65 700 TVL 960 H D-WDR65' IR Varifocal Bullet Security Camera

GET YOUR
Alternative
Construction
Lighting (ACL)
1260 Model
equipped with
The Black Line
Security Camera

This rugged BLACK vandal-resistant 700 TVL 960H resolution varifocal outdoor bullet security camera enables you to record high resolution video - even in diverse and challenging lighting conditions.

The bullet camera is equipped with a 2.8-12 mm auto iris varifocal lens and an advanced 1/3" CCD 960H image sensor that produces 960x494 high-resolution video for live viewing and recording. The camera's 960H image sensor increases a DVRs recording resolution by approximately 30% (compared to standard D1 resolution); to produce sharper, more detailed recorded video.

A unique defog setting improves the camera's viewing capabilities in rainy and foggy weather conditions. Digital wide dynamic range (D-WDR) and 3D digital noise reduction (3D-DNR) produce crisper, clearer images with less video noise.

The surveillance camera is equipped with a 256x sense-up to produce brighter images in low-light conditions, along with a smart zoom that automatically digitally zooms in on areas in which the camera senses motion. The camera's integrated smart IRarray enables it to see up to 65' in the dark without washing out the subject at closer ranges.

*This camera comes with a 3-year warranty, 30-day money back guarantee and free lifetime US-based technical support.

30% TAX CREDIT	\$7,200
TOTAL PRICE	\$17,500
POSSIBLE ANNUAL SAVINGS	\$33,840
DAY PER YEAR	365 DAYS
DAILY SAVINGS	\$92.71
TOTAL PRICE	\$17,500
DAILY SAVINGS	\$92.71
DAYS UNTIL PAID FOR	189 DAYS
DAYS LEFT IN FIRST YEAR	176 DAYS
DAILY SAVINGS	\$92.71
TOTAL SAVINGS IN YEAR OF PURCHASE	\$16,316.96

The ACL Model 1260 Light Tower retails for \$20,000-\$25,000 depending on add on camera options. The government offers a Solar Investment Tax Credit of 30%. The 30% tax credit equals \$6,000-\$7,200 off the original price. *Therefore, making the total cost for you \$14,000-\$17,500!* The estimated annual savings of solar powered versus diesel powered light towers is up to \$33,840. If you divide your annual savings by 365 days, you will discover that your daily savings will be \$92.71. In 151-189 days you will have paid for the light tower itself and be saving \$92.71 every day after.
